

History of C Programming

CHAPTER 2

SURESH TECHS

C PROGRAMMING COURSE

Small story (New York)

Alistair

1941

Dennis

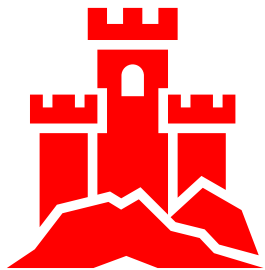

Tennis game

Bell

No medals

Not able to manage kingdom

Studies

Bell

Rich

Operate my kingdom and become rich

You will build an **Operating System**

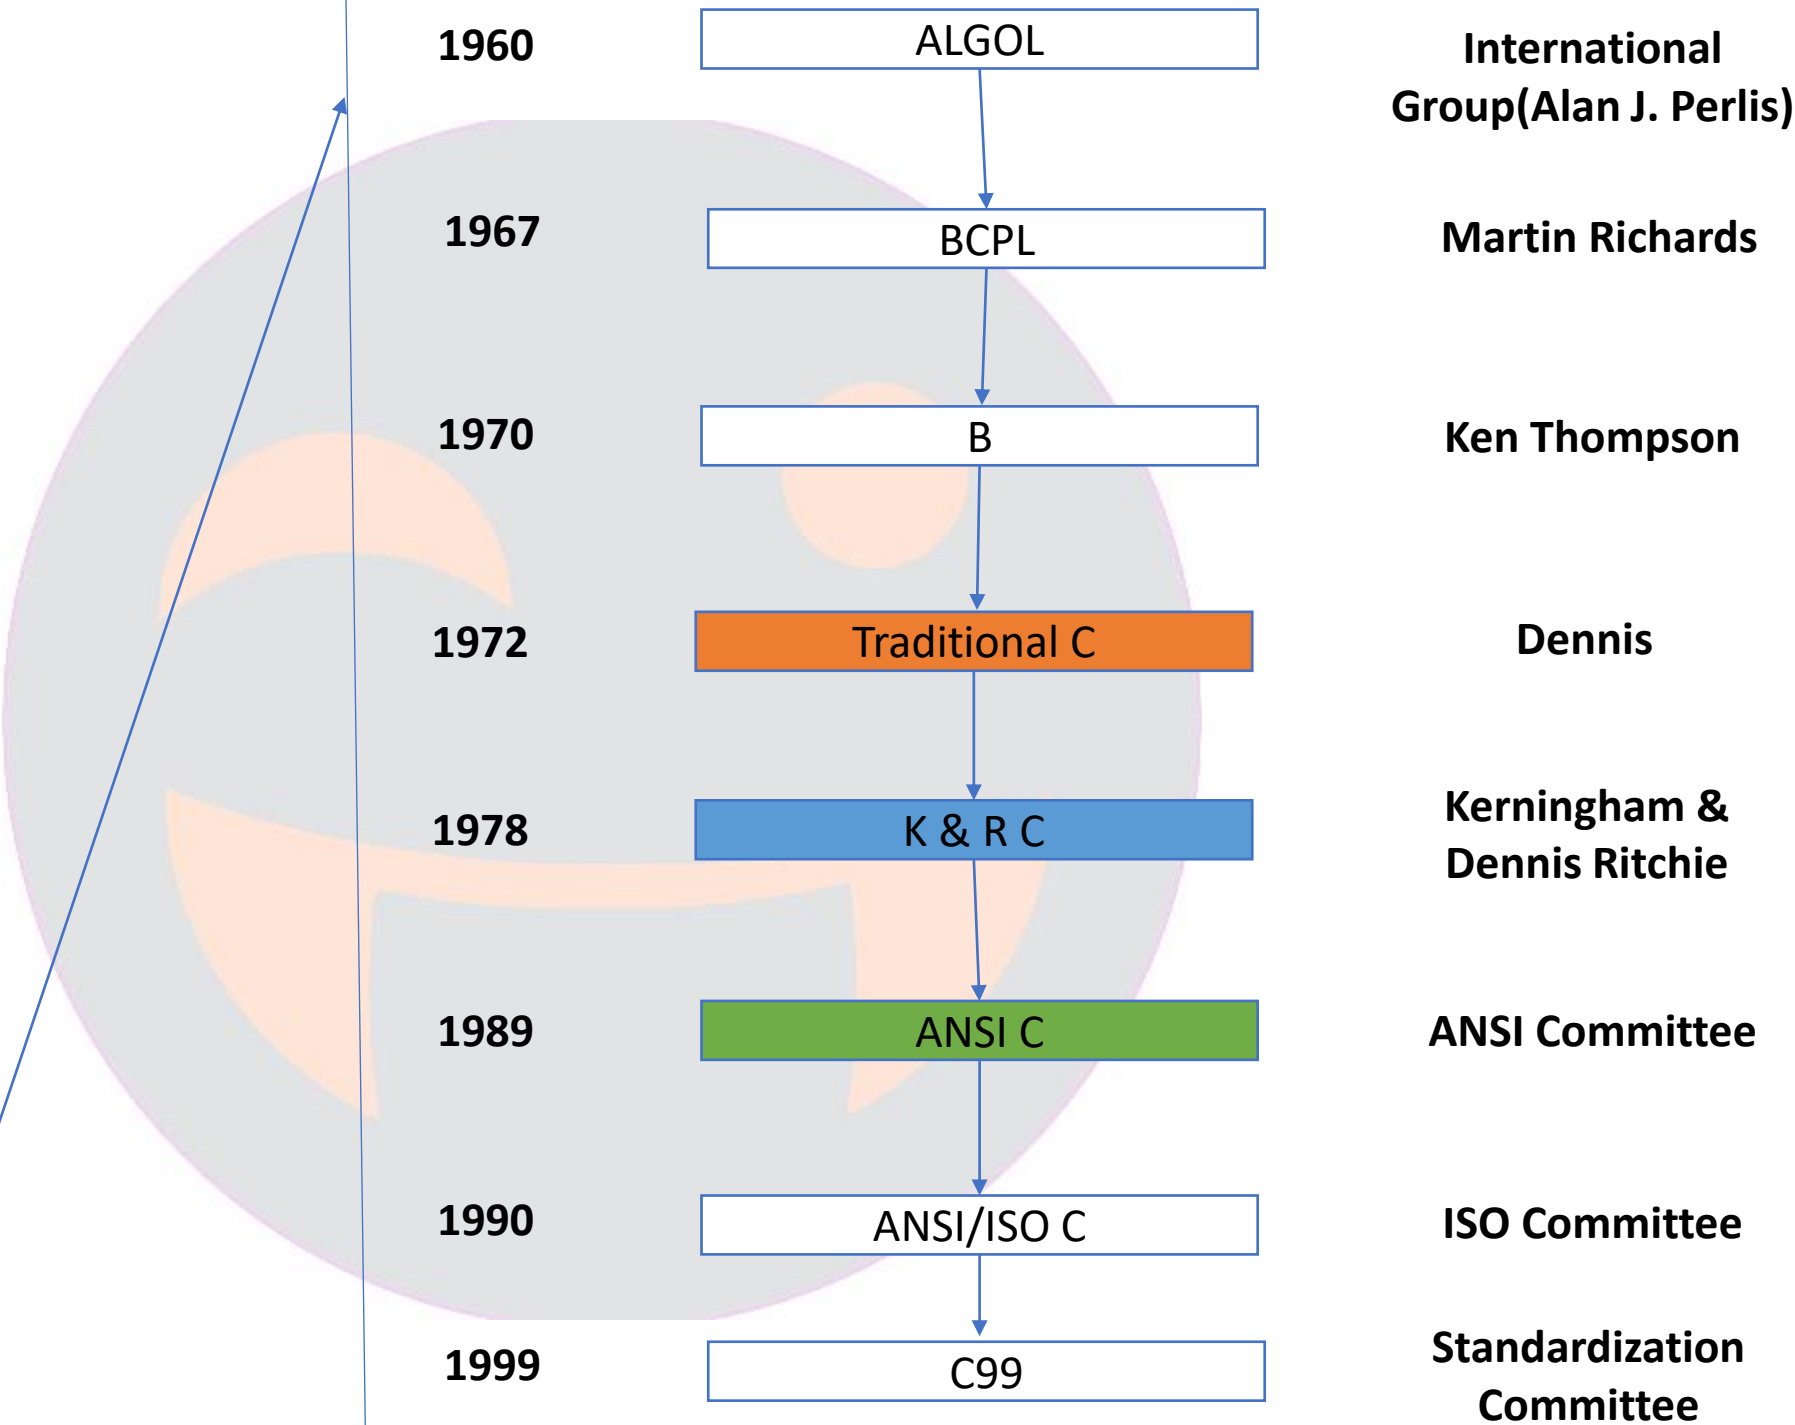

Dennis(Age: 31 Years)

Research started for
operating system

Should develop a
programming language

C Programming

Operating System – name?

You tell a name father

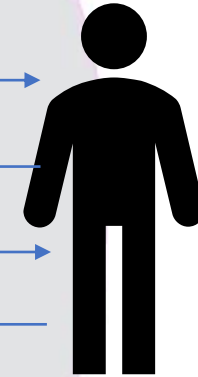

ఎవరు నేనా?

Yes UUUUUUU

OrNIlll edo okati fiX cheyu

UNIX

Operating System

Small story (New York)

Alistair

1941

Dennis

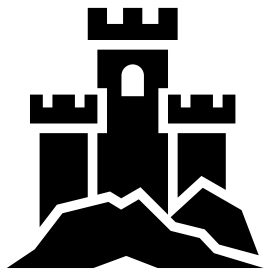

Tennis game

Bell

No medals

Not able to manage kingdom

Studies

Bell

Rich

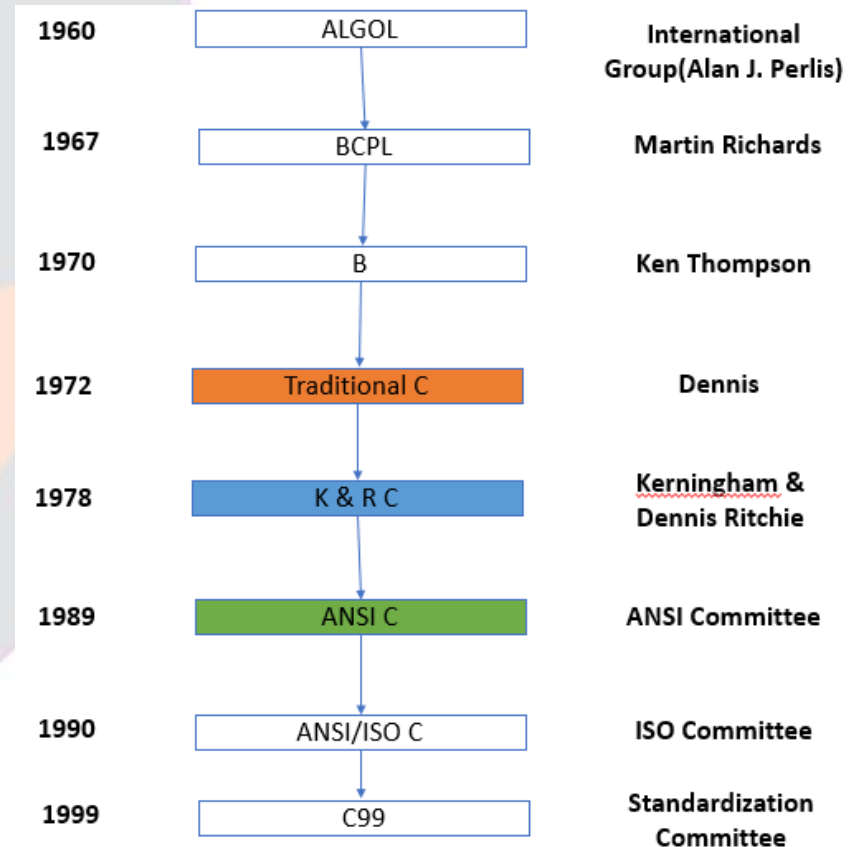

Operate my kingdom and become rich

You will build an **Operating System**

History of C Programming

- It was developed by Dennis Ritchie at bell laboratories in USA
- It was evolved from ALGOL, BCPL and B by Dennis Ritchie at bell laboratories in 1972
- Dennis Ritchie is the father of C programming
- It was developed to create an operating system called UNIX
- Flow diagram

What next?

- Is C programming still used?
- What is the importance of C programming?
