HTML

Tables

Defining an HTML Table(<table>)

Table

<td>					
------	--	--	--	--	--

Row(<tr>)

Table heading

- Table heading
- `<th>`

Table borders

- `table, th, td {
 border: 1px solid black;
}`

Collapsed Borders

- add the CSS border-collapse property

Adding Cell Padding

- `th, td {
padding: 15px;
}`

HTML Table - Left-align Headings

- By default, table headings are bold and centered.
- To left-align the table headings, use the CSS text-align property:

HTML Table - Adding Border Spacing

- Border spacing specifies the space between the cells.

HTML Table - Cells that Span Many Columns

- To make a cell span more than one column, use the **colspan** attribute:

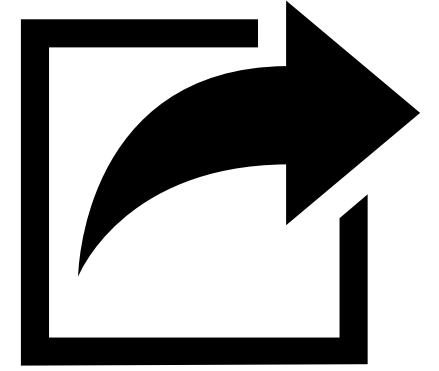

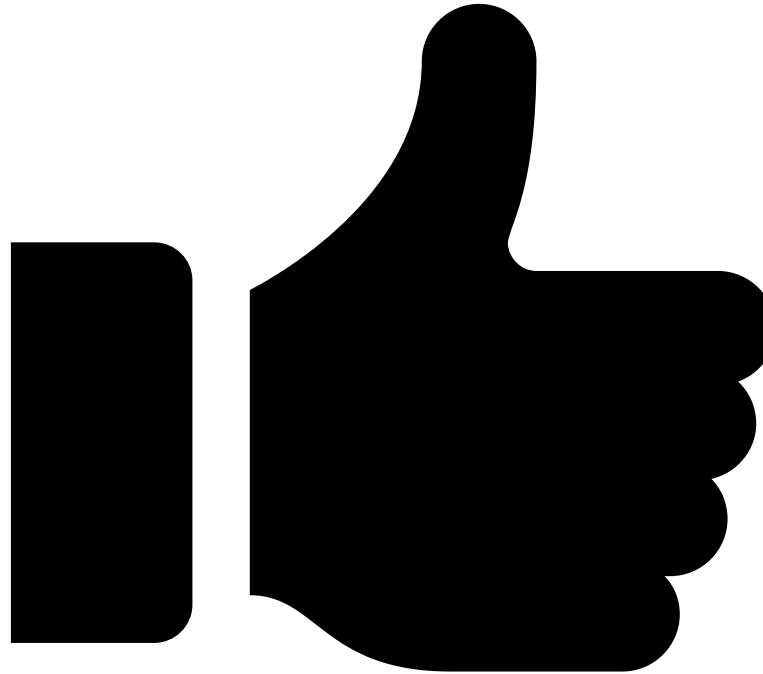

HTML Table - Cells that Span Many Rows

- To make a cell span more than one row, use the **rowspan** attribute:

HTML Table - Adding a Caption

- To add a caption to a table, use the `<caption>` tag:
