```c
#include<stdio.h>
#include"detailsHeader.h"

void sum(int a,int b,int c){
    static int totalSum = 10;
    int sum = a+b+c;
    totalSum = totalSum+sum;
    printf("Total sum: %d\n",totalSum);
}
int main(){
auto int   a = 10;
register int b =20;
register int c = 40;
sum(a,b,c);
sum(a,b,c);
printf("%d",studentPercentage);
return 0;
}
```
