```c
#include<stdio.h>
int main(){
    int rows;
    int cols;
    printf("Enter rows: ");
    scanf("%d",&rows);
    printf("Enter columns: ");
    scanf("%d",&cols);
    for(int i=1;i<=rows;i++){
        for(int j=1;j<=cols;j++){
            printf("* ");
        }
        printf("\n");
    }
return 0;
}
```
